Visit "[Us V Them](#)" on [MotoLyrics.com](http://MotoLyrics.com)

The time has come, the time has come, the time has  
come today

The time has come, the time has come, the time has  
come today

The time has come, the time has come, the time has  
come today

The time has come, the time has come, the time has  
come today

And so all the good people wanna rescue  
All the small people wanna talk to you  
All the clever people wanna tell you  
All the little people wanna dance its true

But the time has come, the time has come, the time  
has come, the time has come

The time has come, the time has come, the time has  
come, the time has come

The time has come, the time has come, the time has  
come today

The time has come, the time has come, the time has  
come today

And so all the good people wanna rescue  
All the small people wanna talk to you  
All the clever people wanna tell you  
All the little people wanna dance its true

Cloud, block out the sun  
Over me, over me  
And spoil, spoil all the fun  
Won't you please

Cloud, block out the sun  
Over me, over me  
And spoil, spoil all the fun  
Wont you please

If you please, please anyone  
Talk to me talk to me

All you boys, lonely and drunk  
On your knees

Us and Them  
Over and over again  
Us and Them  
Over and over again  
Us and Them  
Over and over again  
Us and Them  
Over and over and over again

Because all the good people wanna rescue  
All the small people wanna talk to you  
All the clever people wanna tell you  
All the little people wanna dance its true

So its Us v. Them  
Over and over again  
Us v. Them  
Over and over again  
Us v. Them  
Over and over again  
Us v. Them  
Over and over and over and over  
Us v. Them  
Over and over again  
Us v. Them  
Over and over and over and over

All the good people wanna rescue  
All the small people wanna talk to you  
All the clever people wanna tell you  
All the little people wanna dance its true

Its just Us and Them  
Over and over again  
Us v. Them  
Over and over again  
Us v. Them  
Over and over again  
Us v. Them  
Over and over again  
Us and Them  
Over and over again
