You know, sometimes people make mistakes  
But it only means to stand up and learn from them.  
And sometimes, it's best to listen to what  
The closest people around have to say.  
I know some can relate to this, so just hear me out.

Chorus 2x

Words are running through my head,  
It was wrong of what I did.  
Seems like the biggest mistake I've done yet,  
It was hard to confess, still hard to get it through.  
Something I honestly regret.

I know it's a mistake  
But you gotta give me chances  
To learn as I build, to fight as it comes  
To stand as I fall, I'm really giving it my all  
But knowing I hurt you, just breaks that wall  
You being happy, was important to me  
You made an impact on my life  
I thought things were alright  
But I guess alcohol leads to another  
And now I'm stuck with the outcome it came to be  
You gotta understand it's just as hard for me  
You don't know how disappointed I am  
In myself, in what I did to cause this downfall  
It broke me down to my knees, feels like I gotta crawl  
I'm lost in confusion, pain and angry of what to do  
I need you, to help me fight this through  
It doesn't matter what, as long as it's with you.

Chorus2x

Second chances, don't always come easy  
But I wanna be able to try, in order for you to see  
That I can prove it all, that what I did, wasn't like me.  
At least give me time to explain, please.  
I know using that, was not an excuse  
To do what I did but people make mistakes,  
I'm only human, life lesson awaits  
But what I did, makes it so hard to take

You don't know how much it's killing me inside  
How sorry and guilty I feel, to ever lie  
I didn't wanna hold back, I wanna share everything  
But sometimes the truth just isn't good enough,  
So I take the faults, now I must learn  
From what I was taught, but I can't do this alone  
I just can't do this alone.

#### Chorus

There's so much that I, wanna let loose  
But when it gets down, my words are tied into knots  
To explain who I am, instead of who I'm not  
Sometimes it's just, hard for me to vent  
But when I do, whatever I say, I meant!  
And you know it wasn't like me to do what I did  
I know you're disappointed and it'll take time for that to  
heal  
You don't have to trust me, I'd like to earn that back  
As long as that takes, I'll prove until it's a fact  
I feel like, I lost something that coulda been good  
Cuhs you were so different, you actually understood  
And I know, a " sorry " is just another word  
But I'd like to fix this, to become what it was  
You know how I feel, you know how much it hurts me  
And I know it hurt you, but accidents are a possible  
So just give me time, to prove to you the real me.  
My mind is setting straight, you're all that's missing,  
It's running through my mind, it's got me stressing...  
It just keeps coming to my head,  
I know it's wrong of what I did.

I'm sorry, and I apologize.  
I know it was wrong, of what I did.
