I was wandering downtown in philadelphia  
waiting for something new in my boring life  
then I saw this bird walking next to me  
2 hours later we were fucking in my good old bed

so you got to give it back to me  
you got to give it back to me  
I fucked my life but I want it back

tell me not again

I was wandering downtown in philadelphia  
waiting for something new in my boring life  
I met some friends in the park feeling just like me  
we smoked joints and washed away the day
