Yeah Yeah

What about tomorrow?
Is it just a fantasy?
Is it read what I feel when I'm sitting here without you
now?
It's gonna bring the sorrow
'Cause nothing lasts forever
But with you I'm a fool just standing in the pouring rain

I've been counting the days without you
You know life is a maze that we're going through
And today I'll get by
I'll get through
What about tomorrow?

Yeah

And if I leave will you follow?
And if I fall will you pick me up?
We can fly to the sky and we can run through the edge
of the sun
I believe what I don't know
I can see what I don't show
What a whirl, what a girl, I think the ocean found a pearl

I've been counting the days without you
You know life is a maze that we're going through
And today I'll get by
I'll get through
What about tomorrow?

Yeah

I've been counting the days without you
You know no one can love you the way I do
And today you say I will get through
What about tomorrow?

Good-bye
To all the thing in my heart

Everything that I'm not
Give all that you got
Good-bye
Now you're flying away
Nothing left to say

What about tomorrow?
Is it just a fantasy?
Is it real what I feel when I'm sitting here without you
now?
[spoken] How's it gonna work out?
Yeah

I've been counting the days without you
You know no one can love you the way I do
And today you say I will get through
What about tomorrow?
What about tomorrow?
What about tomorrow?
