

## Le Sport "Business Girls"

Visit "[Business Girls](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I was surprised to see you turn around  
When I was playing different sounds on my guitar  
We were lovers since the day we met  
Since you said I look like Chet and I said you look like  
Brett from Suede

But summer is running away from me  
I wanted to but I can't stay  
Or go to business school and learn about romance

God bless you business girls  
God bless you business girls  
I cannot get enough of you  
Business girls you mean the world to no good boys like  
me

I was surprised to see you come around  
When I was singing different songs on the dancefloor  
Yeah we were lovers since the day we met  
Since you said I look like Chet and I said you look like  
Brett from Suede

But summer is running away from me  
I wanted to but I can't stay  
Or go to business school and learn about romance

God bless you business girls  
God bless you business girls  
I cannot get enough of you  
Business girls you mean the world to no good boys like  
me

You came into my life when business girls would cut  
like knives  
I want to take you out tonight but business girls prefer a  
drought to draught  
In Indian bars and cars to stars of no good pop bands  
like ours.
