When I saw you the other day
With your lady Di - do you see I felt ashamed?
Come out and dance with some friends of mine
You know I can assure you a better time
With no cheap shots from fashion cop business boys
Smash-and-grab at three a clock knocking back dicks
and mouth wash
I let you set me back a lot back then
But I can guarantee it won't happen again

Now I want to be with you
And I know you want to be with me too
I used to think you stood in my way
But I have changed my mind today
And I might just change it back again

When I look back I see I've made a mistake
I was just a child but I'm ready today
(And I think you can take me higher)
And if we don't like the view I can let go of you
And you can go back up to suburbia
And I can fall back down on the eurosport sound

Now I want to be with you
And I know you want to be with me too
I used to think you stood in my way
But I have changed my mind today
And I might just change it back again

Now I want to be with you
And I know you want to be with me too
I used to think you stood in my way
But I have changed my mind today
And I might just change it back again

(Come on, come on
Feel it, Feel it)
