Oh, we could rock  
Or we could bomb  
Or we could try  
Like super hard

Or we could come  
Or we could lose  
Or we could totally  
Totally, totally freak you

I wanna spread my dementia  
I wanna knock it off the line  
Give me attention  
Every day and every night

We could suck  
"They might improve"  
We get our grades from  
Professor you

Or we could fly  
Demystified  
Or we could please you  
All night

I wanna spread my dementia  
I wanna knock it off the line  
Give me attention  
Every day and every night

Don't want no crusty bullshit  
No crap or attitude  
Just wanna get electric tonight  
You know with you, you, you, you

Or we could  
Or we could  
Or we could  
Or we could fail, fail, fail  
So?
