The stars are getting in and out of automobiles
And we keep wondering when we're gonna feel
something real
Keep waiting for a Santa that'll never come
A real party not just people who're faking fun
But everything gets erased before it's even said
And all that glitters isn't gold when inside it's dead

All that glitters is not gold [x4]

I went to yr concert and I didn't feel anything
I went to yr concert and I didn't hear anything
I went to yr concert and I didn't feel anything

(oh baby) you just want me empty!
(oh baby) you don't say anything!
(oh baby) why won't you answer me? All that glitters is
not g

I sat thru yr movie but I didn't see anything
I went to yr comedy club and didn't laugh at all
I went to yr movie and I didn't hear anything
I went to yr concert and there was nothing going on

You don't say, you don't say
You don't say anything.....
