Make My Blood Boil

Come into my secret world
Follow my darkest memories
Become my gaurdian of death
Protect me from the screams
Look into my shattered lights
Ignore the look of lust
I will not tell you lies
You have my total trust
Push my face down underwater
Cover me with burning oil
Bring me to the massive slaughter
Make my blood boil
Make my blood boil
Alive
I will bw strong for you
I will be hard as stone
Tell me your darkest secrets
You dream when you're alone
