Take A Chance
I'm gonna tell ya
A little something on my mind
Don't wanna take it slow
Because love I might find
Gotta take my chances
Ain't got much to lose
'cause all I seem to think about is being with you
CHORUS:
Can you help me out
Can you say you've been thinking about me too
I don't wanna be alone
But I'll take a chance
'cause true love doesn't come easy
Baby can you help me out
Think of all of the times
I was out in the cold
Nine out of ten I could've had someone to hold
But I never needed anyone like I need you now
Never wanted no one like I want you now
CHORUS
