This only works because we both know it will never work
out
So we pretend that it's not the end and we talk about
All of the days when we'll be together, we lie to
ourselves because anything's better
Than what we have right now because I don't have
anything

And I know that you'll go on forget about me
And I'll try to get by but there's no gaurentee
On things like these- the things that bring us to our
knees

CHORUS:

Let's go back to the start to where it began
When you took my heart in the palm of your hand
But you took it away and now all that's left
Is this empty space in the heart of my chest

This only lasts because we both know it will never last
long
So we keep alive all of the lies that we both know are
wrong
But it's alright if it helps us fall asleep at night
But in the end we're both sleeping all alone again

CHORUS

And I know this is not enough, nothing is what we both
dreamed of
When we dreamed and planned our lives out on the
basement couch
It wasn't us

CHORUS
