I wanna tell you somethin'  
About somethin' I found out  
Had it all under control  
There was nothin' to figure out  
The road was there I took a left  
I meant to take a right  
Might never have known about it  
Might never have known  
All that I'd been missin' in my life

Chorus

When you go down that road  
There's no turning back  
And when you go down that road  
It's plain to see that  
From out of this bleeding world  
There's nowhere else I'd rather go  
Than down that road

Had all the things I thought I wanted  
Then I wanted more  
And in my mind this all was fine  
No need to check the score  
And then one day I lost it all  
That's when I realized  
Might never have known about it  
Might never have known  
All that I'd been missin' in my life

Chorus

I know that what I touch and see  
Can't fill me up  
So, if I want to wake this soul  
It's about love

Oh when you go down that road  
There's no turning back  
And when you go down that road  
It's plain to see that  
From out of this bleeding world

There's nowhere else I'd rather  
Go than down that  
Oh down that road

Come with me down that road  
Come with me down that road  
Come with me down that road  
Come with me down that  
Road of love that fills my soul

So go  
Oh little children, go and don't you be afraid  
Chance the current and the loss  
Or be borne away  
Take back yourself  
Take back the night  
Take back today  
And then show the world the way
