Give me a moment here
Just enough to catch my breath
Something is happening here
And it's scaring me to death
You push me to the edge
Where I wanna risk it all again
For the first time in a long time
I'm throwing caution to the wind

You can break me down
If you wanna break me down
It doesn't really matter
How this crazy thing turns out
'Cause you take me there
Where I lose myself
Just for a moment, if nothing else
You can break me down
If you wanna break me down

Yeah, it's the strangest thing
But it all makes perfect sense
Funny how life falls in place
When you dare to take a chance
You push me to the edge
Where I wanna risk it all again
So take me where you want to
I am willing to give in

You can break me down
If you wanna break me down
It doesn't really matter
How this crazy thing turns out
'Cause you take me there
Where I lose myself
Just for a moment, if nothing else
You can break me down
If you wanna break me down

Ooh, yeah

You push me to the edge
Where I wanna risk it all again

So take me where you want to
I am willing to give in

You can break me down
If you wanna break me down
It doesn't really matter
How this crazy thing turns out
'Cause you take me there
Where I lose myself
Just for a moment, if nothing else
You can break me down
If you wanna break me down

You can break me down
If you wanna break me down

Ooh, you can break me down

You can break me down
