Look at the sky tell me what do you see
Just close your eyes and describe it to me
The Heavens are sparkling with starlight tonight
That's what I see through your eyes
I see the Heavens each time that you smile
I hear your heartbeat just go on for miles
And suddenly I know why life is worthwhile
That's what I see through your eyes
Here in the night I see the sun
Here in the dark our two hearts are one
It's out of our hands we can't stop what we have begun
And love just took me by surprise
Looking through your eyes
I look at myself and instead I see eyes
Whoever I am now it feels like enough
And I see a girl who is learning to trust
That's who I see through your eyes
Here in the night I see the sun
Here in the dark our two hearts are one
It's out of our hands we can't stop what we have begun
And love just took me by surprise

Looking through your eyes
And there are some things we don't know
Sometimes a heart just needs to go
And there is so much of us I remember
Underneath the open sky with you forever
Here in the night I see the sun
Here in the dark our two hearts are one
It's out of our hands we can't stop what we have begun
And love just took me by surprise
Looking through your eyes
Looking through your eyes
