Like a cloud full of rain shouldn't hang in the sky

Ice shouldn't burn or a bumblebee fly

If you feel so happy, then why do you cry?

Oh nothin' bout love makes sense.

Like an ocean liner shouldn't float on the sea

A pearl in an oyster or a circus of fleas

Someone so perfect can't be falling for me.

Oh nothin' bout love makes sense.

Nothin' bout love is less than confusing

You can win when you're losing, stand when you're falling

I can't figure it out.

Nothin' bout love can make an equation nothin' short of amazing

Wish I could explain it

But I don't know how.

The way that we dance, the reason we dream

That big Italian tower, well how does it lean?

Something so strong shouldn't make me this weak

Oh nothin' bout love makes sense.

(Instrumental)

Nothin' bout love is less than confusing

You can win when you're losing, stand when you're falling

I can't figure it out.

Nothin' bout love can make an equation nothin' short of amazing

Wish I could explain it

But I don't know how.

Like the lights of Las Vegas going out on the sand

A jumbo shrimp or a baby grand

How you're touching my heart when you're holding my hand

Oh nothin' bout love makes sense

Oh nothin' bout love makes sense

Oh nothin' bout love, makes sense

No no no, oh it don't make sense.
