Nowhere to go, all night to get there
Another nice try, with mister Wrong
Late-night TV on my horizon
National anthem and I'm barely hangin' on
Just a typical Saturday night
Feeling like the rest of my life
But there was

Chorus:

Nothin' new under the moon
Same old dance, same old tune
Just wishes on stars that never came true
Just one more night to get through
There was nothin' new under the moon til you

Hey what a change, hey what a concept
Here's a true heart wanting mine
News flash: who'd ever thought
You could have the same feelin' at the very same time
Look at what your love's doing to me
I can't believe I used to believe
That there was

(repeat chorus x2)

Nothin' new under the moon til you

Nothin' new under the moon
There was nothin' new under the moon til you
Repeat x2

Nothin' new, til you----
ooooh yeah

There was nothing' new under the moon, til you
repeat x2)
oooooh oh oh oh
