I'm only happy
When I'm with you
I only feel good
When I'm talkin' to you

And I'm a mess
When you don't call me
Call me at night

Where did you go?
Where did you go?
And did you think of me

It's hard to breathe
And my heart's sinkin'
I'm slippin' fast
As I am reachin' for you

It's gonna hurt 'cause
I've been there before
Can't take much more
Can't take another night
Without you, here beside me

I want to review my kisses
On every inch of your body
I want to reveal my secrets
That only you should know

I feel all this pain inside me
That only your lips can make better
I wanna review my kisses
So you won't forget that you are mine

Don't wanna care

More than you do
Don't wanna be the
One who's out in the rain

Don't wanna get that
Call where you sound so cold

So far away, so far away
Like the distant roll of thunder

I want to review my kisses
On every inch of your body
I want to reveal my secrets
That only you should know

I feel all this pain inside me
That only your lips can make better
I wanna review my kisses
So you won't forget that you are mine

It's a cave in the darkness
And I'm lost inside you
Don't go

I want to review my kisses
On every inch of your body
I want to reveal my secrets
That only you should know

I feel like a childless mother
Longin' to hold her baby
If I could review my kisses
Then you won't forget that you are mine
