I was blinded by the city lights
LA livin' up the crazy life
Lookin' back on how far I'd come
Not quite sure what I was runnin' from

A million miles away from the world I knew
Who'd ever thought it'd lead me back to you...

[Chorus]

You take me to front porch swings
Mama singin "Cheatin' Heart"
Yeah what a rush
Catchin' lightnin bugs in a mason jar

You take me to county fairs
Bedtime prayers
Old wooden rockin' chairs
And all the things I loved I thought were gone
You take me home
You take me home

Took awhile to finally come around
And separate all that was lost and found
If there's one thing by now I better know
The grass ain't greener where it doesn't grow

I needed someone who would love me like you do
To lead me back to the simple truth

[repeat chorus]

Summer heat
Life's so sweet
And dancin' on daddy's feet
And all the things I loved I thought were gone
You take me home
You take me home
You take me home
