"A Sad Day Indeed"

And your mine shaft give yourself shaft
Machiavellian killing in time lapse
Unfashionable pure become fewer and fewer
And if you listened if you paid heed
It'd be a sad day indeed
A sad day indeed...
You play ball you miss 'em all sick man
Thick man living by your dick man
Glorious tories with after dinner stories
And if it stands still he'll taint it
Killing colour killing each other
You're killing each other...
Killing
Mata Hari's dance enchants the entranced
You can steal a first kiss
But that doesn't last like ignorance is bliss
The government bleeds building and houses
The yards upon yards pay for it all you pay for it all
Pay for it all...
