

Leatherface "Discipline"

Visit "[Discipline](#)" on MotoLyrics.com

I've seen people turn to God, their discipline is praising
the Lord
I've seen people go off to war, getting discipline and
needing more
I've seen people junk up in the street, their discipline is
needle speak
I've seen many things in my time, I haven't seen water
turn to wine.
We all live like dogs, our disciplines are laws.
Discipline on TV screen, ensures the persistence of the
mainstream dream.
Do what you like, because I'll never ask why? I value my
own life.
I've seen people turn to crime, their discipline is what's
mine.
I've seen people walk in line, their discipline were right
wing minds.
I will remember you, disciplines are our laws...
