We won't play european like we play lotteries  
We make bombs and millionaires like mindnumbing sit-  
coms for TV  
Then eat her face and then it pours again  
We'll eat her face and then it pours again  
We maintain wars from afar for future past glories  
We make empire stories conspiracy theories  
Then eat her face and then it pours again  
They'll eat her face and then it pours again  
Eat her face then it pours again eat her face  
Then eat her face and then it pours again  
We'll eat her face then it pours again oh  
And eat her face and then it pours again  
We'll eat her face then it pours again
