If you follow me I'll take you to a zoo  
And I will show you the whole picture sister  
Together with wires and glue you can't have  
All the things that are rare because an atrocity here  
Is an embarrassment there are you the little girl  
Who'll grow up to save the world or are you the little  
boy  
Who carries on the evil men do who will talk  
For the beleaguered few what's it worth this pain of  
childbirth  
It's something I know nothing of \*well come on\* you  
were once  
The picture of innocence that was stolen a long time  
ago  
They're still something of the earth salt or scum or both  
Are you the little girl who'll grow up to save the world  
Or are you the little boy who carries on the evil men do  
who will talk  
For the beleaguered few what's it worth this pain of  
childbirth  
It's something I know nothing of inner city slums and  
air powered guns  
Taking the clothes lines and heading for the sun  
Something died inside where something used to shine  
You were once the picture of innocence and that was  
stolen a long time ago  
Something of the earth salt of scum or both  
That was a long time ago long time ago long time  
Are you the little girl who'll grow up to save the world  
Or are you the little boy who carries on the evil men do  
who will talk  
For the beleaguered few what's it worth this pain of  
childbirth  
It's something I know nothing of  
Are you the little girl who'll grow up to save the world  
Are you the little boy who carries on the evil men do  
The evil that men do...
