

Leatherface "Our Father"

Visit "[Our Father](#)" on MotoLyrics.com

Well I don't need no United Nations just like the League
of Nations
We can pray pray for a better way
I don't need no crazy conversations along the lines of
invasion
You think so *thought* that I don't know
Then say a one our father is what you say
It's one or the other I don't think so
I don't believe this one I don't believe this one I don't
believe this one
At least I don't think so so do what you can we can't be
everything
We watched the bloody slaughter that could have been
in our own square
What do you say 'It's so far away'
I don't need to be tortured in some South American jail
It hurts I can see it hurts
Then say one our father is what you say
It's one or the other I don't think so
I don't believe this one I don't believe this one I don't
believe this one
At least I don't think so to do what you can you can't be
everything
Another crazy conversation along the lines of invasion
I don't think so with all that I don't know
I don't need to be tortured in some South American jail
To know it hurts cause I can see it hurts
Then say a one our father is what you say I don't think
so
