Discourse like a machine gun I'm hunting rabbits for  
their tails  
Not lying or pretending just counting circles with  
square eyes  
And everything you ever said is everything gone wrong  
tonight  
And everything you ever said is everything gone wrong  
Mood lighting won't fix it even rabid dogs have their  
day  
I'm not lying be deceiving I'm hunting rabbits for their  
tails  
And everything you ever said is everything gone wrong  
tonight  
And everything you ever said is everything gone wrong  
tonight  
And everything you ever said is everything gone wrong  
tonight  
And everything you ever said is everything gone wrong  
tonight  
Thing gone wrong tonight thing gone wrong tonight
