

Leatherface "Speak In Tongues"

Visit "[Speak In Tongues](#)" on MotoLyrics.com

You won't last for long you won't see the setting sun
And it's alright for me to be what you want to be
You will be my brother you will be the one and you will
be the setting sun
Do it all do it well cause you live here
Do it all do it well cause you live
Do it all do it well cause you live in hell
And do it all do it well cause you live here
Well I don't want to sell I'll leave it to another day
Cause it's alright for me to sing about my country
And you won't last for long you will see the setting sun
Then it's alright for me to be what I want to be
You will by my brother then you will be the one and you
will be the setting sun
Do it all do it well cause you live here
Do it all do it well cause you live
Do it all do it well cause you live in here
Do it all do it well cause you living
Then we all lived to war we all lived to war
We are living sons we are living sons
And we all speak in tongues we all speak in tongues
We all speak in tongues and we all we all
You don't want to sing that tune we all want another
one we all we all
But you don't want to sing that tune we all want another
view we all
