## "Cry Out"

Visit "[Cry Out](#)" on [MotoLyrics.com](http://MotoLyrics.com)

The words you hear are nothing more than illusion  
Faces you've known are faces of stone  
Step outside the distant realms of tomorrow  
Open the door and listen to your heart

Tell me how much just have we got to say?  
We've got to live our lives our own way  
On and on and on  
It's the feeling that comes from the heart  
You've got to make a start  
Feel it from now to the end - it never ends

Cry out - set yourself free  
Live your life your own way  
Cry out - soon you will see  
No one stands in our way  
Cry out

Feels that it's like now you're on your own  
You've got to let yourself go and watch your spirits fly  
I know there's always a way - hear what I say  
Feel it from now to the end - it never ends

Cry out - set yourself free  
Live your life your own way  
Cry out - soon you will see  
No one stands in our way

Some time dream about what you want to be  
You won't believe your eyes  
I hear a cry out in you, you've got to believe

Cry out - set yourself free  
Live your life your own way  
Cry out - soon you will see  
No one stands in our way  
Cry out!
