We rage, rage in the cage  
Competition's out to waste you  
They'll find their little ways  
To try to get rid of you

The crimes that are against you  
Leave your past behind

Doomsday Â– holiday Â– derail this train  
Going off the deep end with you

No time for contracts  
It can't be taken  
Unless it's torn right out of you  
Mirrored reflections  
Life's rejections  
And they'll pin them right on me

The crimes that are against you  
Leave your past behind

Doomsday Â– holiday Â– derail this train  
Going off the deep end with you

You better say your prayers  
Inside a suicide rapes  
Prowling the land eating time  
There is no compromise  
Retrieving the life that is mine

Doomsday Â– holiday Â– derail this train  
Going off the deep end with you  
Deep end with you  
Deep end with you
