Watch out! Here she comes
Blasting to forgotten times
Gypsies chant enchanting rhymes
Only you will share disease
Never believe gypsies and thieves
Looking through you with eyes so untrue
Spellbound and trance
They rest in your hands

Right now Â– watch your back
Behind your eyes will be the crime
In one thin chance and legend eyes
Only you will check from seas
Never believe gypsies and thieves
Looking through you with eyes so untrue
Gypsies and Thieves
Spellbound and trance
They rest in your hands

The crystal ball's the gypsy's secret way to see through
time
Gold and silver, rings and rubies complimenting ties
Tricks and trades are only ways a thief denies his lies
I told the truth, it's how I'm lasting sparkling in their
eyes

Restless ways long forgotten
Timeless days never showing
Restless ways long forgotten
Timeless days never showing
Restless ways long forgotten
Timeless days never showing
Restless ways long forgotten
Never believe gypsies and thieves
Gypsies and thieves
Gypsies and thieves
