I hear the voices fade away, their voices fading away
I hear the voices fade away, their voices fading away

Wake up the little boy
Puppet to be destroyed
Your privacy betrayed
Take take take your life away

Cold silent words come out
Been stolen from your mouth
Corrupted me this way
No, I will not obey

Institutions
I hear the voices fade away, their voices fading away
Out to you I reach
I hear the voices fade away, their voices fading away
Through the walls I creep
I woke up inside to see the outside

Nightmares they strip away
Toxic humanity
Captive to my own mind
Fictions on which I thrive

Sick man's reality
Robs the awakening
Changes what once was real
Searching for what I feel

Institutions
I hear the voices fade away, their voices fading away
Out to you I reach
I hear the voices fade away, their voices fading away
Through the walls I creep
I woke up inside to see the outside
Did you get em

Born of god
We build a cage
Inside a saw
With no escape

My revelation
Now it takes control
Man's fallen, world asylum
Can't be, can't be
Is this what we deserve?

Institutions in my head
Institutions in your head
Institutions in my head
Institutions in your head
