Sadly smile and turn the pages  
Realise the darkest age is now  
Now that you have gone  
Try to scream and only whisper  
Deep inside you only want to call  
But you just seem to fall

If we could see what tomorrow brings  
Forever we'll share a dream  
Share a dream  
Turn out the light and don't be afraid of the night  
I need someone to break my fall  
And listen when my spirits call  
Share a dream  
Still no one hears

I wake alone, you're nowhere near me  
Somehow, some way  
Dreams all seem too real  
The loneliness I feel  
My heart is parched, my soul is thirsting  
For the cup that your love just won't fill  
The loneliness leaves me still

If we could see what tomorrow brings  
Forever we'll share a dream  
Share a dream  
Turn off the light and don't be afraid of the night  
I need someone to break my fall  
And listen when my spirit calls  
Share a dream  
Still no one hears

I won't be lonely for ever, ever, ever  
'Cause I know that some day we'll be together  
I need you to break my fall  
I need you, I need you  
Let's share a dream  
Can this be real?  
I want to know

Let's share a dream

Let's share a dream - just you and I  
Let's share a dream
