Here I am, alone in the sun
Diggin' me down, deep in the ground
I can't explain, I'm feelin' low down
I've got my head, deep in the sand
Diggin' me down, deep under ground
I can't explain, I'm feelin' low down
What if I wash myself away
Would it be easier that way
That way
You can take it all
I lost my self-control
Something starts and won't stop achin'
Some might think it's strange
But I will never change
Found my way so please stop shakin'
Here I am, alone in the sun
It's comin' around, bleeding the sound
I can't explain, I'm feelin' low down

What if I wash myself away
Would it be easier that way
That way
You can take it all
I lost my self-control
Something starts and won't stop achin'
Some might think it's strange
But I will never change
Found my way so please stop shakin'
You can take it all
I lost my self-control
Something starts and won't stop achin'
Some might think it's strange
But I will never change
Found my way so please stop shakin'
You can take it all
You can take it all
When I'm gone, I wash myself away
