

Leaves "Deep Blue"

Visit "[Deep Blue](#)" on MotoLyrics.com

How can I, get rid of the lines around my eyes
Will your soul, help brighten my complexion
My skin is dry, my head is troubling me again

So I leave my deep blue day
For you
For the first time all the way
For you

All the time, that I didn't listen
Now it's gone, the bridge between our two worlds

My eyes go blind, my head is troublin' me again

So I leave my deep blue day
For you
For the first time all the way
For you

So I leave my deep blue day
For you
For the first time all the way
For you
