I've heard your song  
And I've seen the light  
In your eyes and it  
Took me so long to see  
Straight through the night  
And through you  
Ahhh~

You're the depths of my own mind  
And you're the heights of my creation  
Wait for me, wait for me

Alone but strong when you're in my sight  
Your love hit me like a stroke  
Take me with you  
Take me with you

Take me to that place (Ahhh)  
Where I feel so safe (Aaah~)  
Into your light I dive (Into your light)  
Take me to that place (Ahhh)  
Where I feel so safe (Aaah~)  
Into your light I dive

I've taken this step  
And we're intimate now and I am  
I am joining your world  
A formation of love and you shine  
Through me

You're the depths of my own mind  
And you're the heights of my creation  
Wait for me, wait for me

Alone but strong when you're in my sight  
Your love hit me like a stroke  
Take me with you  
Take me with you

Take me to that place (Ahhh)  
Where I feel so safe (Aaah~)

Into your light I dive (Into your light)  
Take me to that place (Ahhh)  
Where I feel so safe (Aaah~)  
Into your light I dive

Into your light~  
Enter my mind~  
Into your light~  
Enter my mind~

Mermaid medium of light  
For the morning that comes  
For the orchid that grows  
Love me against all odds  
You defeated the doubt  
That was stuck inside me

Take me to that place (Ahhh)  
Where I feel so safe (Aaah~)  
Into your light I dive (Into your light)  
Take me to that place (Ahhh)  
Where I feel so safe (Aaah~)  
Into your light I dive

Into your light I dive~  
Into your light I dive~
