Lovelorn

You are a wandering shining star
You light up the sky, you take me so far (take me far)
One crystal inside my lonely heart
You light up my life, I embrace your light (you're my
light)

[Chorus:]

You're my healer
I am lovelorn
In the cool breeze I hear your sweet voice
I'm your treasure
I am forlorn
In the rain I feel your warm tears

I can't forgive God and myself
I should have been there to give you strength (be your
strength)
One kingdom below the dark blue sea
Hides my lovely Amelie (I love you Amelie)

[Chorus]

Lovelorn you are gone, lovelorn
Where is your home now
Now you are gone, lovelorn
