The way of the ocean
Touch my heart like fire
I cannot control you
You have deeper layers

You're alive and you're wild
When you're nearer to me
I lean forward to touch you
But you surprised me

When I lean against you
I will only fall through
Sometimes you seem to sleep
Then a storm's coming through~
through~

Fear the ocean's way

The way of the ocean
Touch my heart like fire (Oceans way)
I cannot control you
You have deeper layers

Ah should I fear you
Are you caught in anger (Fear the oceans way)
Gods cannot control you
Winds make you go higher

If I swim to the ground
I will need to go up
You will turn me around
When the storm's coming through

When the morning dawns bright
I admire the silveriness inside you
I look into this mirror~
I look into this mirror

Ocean's way

The way of the ocean
Touch my heart like fire (Fear the oceans way)

I cannot control you
You have deeper layers

Ah should I fear you
Are you caught in anger (Oceans way)
Gods cannot control you
Winds make you go higher

You're alive and you're wild
When you're nearer to me
I lean forward to touch you
But you surprised me

If I swim to the ground
I will need to go up
You will turn me around
When the storm's coming through~
When the storm's coming through

The way of the ocean
Touch my heart like fire (Fear the oceans way)
I cannot control you
You have deeper layers

The way of the ocean~
(Fear the oceans way)
It's the waves ruled by the winds~
