Chely Wright

Cautions in the wind  
The hardest part is through  
You don't have to try so hard  
To make me fall for you

I've surprised myself  
With what I've gone and done  
Just today I heard myself  
Swear you were the one

Chorus  
Laugh I just have to laugh  
I really thought you knew  
I can't believe  
That your asking me  
When I will love you  
I already do  
I already do

You've been doing fine  
Please don't change a thing  
It's too good to hide away  
So i might as well come clean

I didn't shout it out  
But everybody knew  
Funny you're the only one who didn't have a clue

REPEAT CHORUS

I gave you my heart  
Can't you feel the power  
You want to see the light  
Baby the sun's been up for hours

REPEAT CHORUS
