LeBronch in da house!
Here we are again, step into the promised land
LeBronch's the name of the band, we sing songs in the sand
Tarzan hit the keys while Master Cris the guitar,
MC Ed, Jesus, Joaco and Chinatown in the house!

We sing about Peace, and we sing about the Rainbow
We sing about love, the Driver and our Home,
Come into the van, let us take you for a ride,
Just open your arms and close your eyes

Music for the soul, the pain drifts away

Don't cover your ears cus' the notes are gonna get ya
Lyrics from our hearts, they don't come from our heads
now
Music is da medicine for loneliness inside
We'll always keep on playing as long as you smile

Sing to the rhythm of the Cris guitar,
Let us bang us the drums of Chinatown,
Come into the van, let us take you for a ride,
Just open your arms and close your eyes

Coro

Music is the medicine for loneliness inside,
We'll always keep on playing as long as you smile...

Coro
