Yeah, sometimes we get so addicted to self that, you don't realize you hurting other people, specially the people you care the most about.

Hook:

Girl I love ya cross my heart and hope to live to make you smile,  
Cause I don't deserve for all the times you held me down,  
Listen to me now. I love you girl.

Ya know I had to do a love song  
To let the whole world know bout my love jones ,  
Love sticks is what I told the docter,  
We could be more like Sho Baraka,  
But we all moors and we been that  
And when I said I do, I meant that  
Its trip that, you let me lead you  
Cause I'm a mess and sometimes I need you  
And I need you, to understand  
That I'm dying everything tryin to be a better man,

I put that on my momma,  
I love the way you play your part through my drama  
Long nights, long flights ,trips outta town  
Ya keep my head up when it was hanging down  
Down like four flats on a lack  
I let you down and you still keep coming back

Hook:

Girl I love ya cross my heart and hope to live to make you smile,  
Cause I don't deserve for all the times you held me down,  
Listen to me now. I love you girl.

Out here trying to save the world,  
Cant forget about my baby girl

And baby girl, you so tight its true to me sometimes I wonder why you fool with me  
Cause foolishly I'm prone to hurt you,

Call you grace cause I don't deserve you  
I recall cold nights, no lights, low dough nights  
You ain't fussin you was there the whole night sayin its  
alright,

So faithful, Far as beef yeah we done had a plateful  
But we ate it up and we made it up  
Cause our view of the Lord wasn't great enough  
No divorce cause what God brought together,  
We will never tear apart, gonna fight and never let up.  
And when I get up I'm back down on my knees,  
Thank God my rib's the best part of me.

Hook:

Girl I love ya cross my heart and hope to live to make  
you smile,  
Cause I don't deserve for all the times you held me  
down,  
Listen to me now. I love you girl.

All the fellas out there in the world  
If your lady love God and you gotta good girl  
Stay wit her, pray wit her, take her on a date  
Tell her you appreciate....

How she love me, how she cares  
And how shes every woman every where,  
And baby I'm sorry for all the days I let you down  
But I got something to say, I love you girl
