Lets establish that He' Israel' King
So in Matthew 1 and 1 and on the 1:17,
We see His lineage and trace way back into time
That legally He was fine in the Davidic line
And genealogically He' still King of the Jews
Cause the Book of Luke exposes genetical clues
See a true King
though He didn't do it in the physical,
He brought a new covenant to free 'im in the spiritual
And after sometime,
Wise men from the east came looking for the new born
king in the streets

I know some of you dudes may cruise a 4Runner
But Christ had the dude He used as a forerunner
And no promoter gunna cut it like the John the Baptist
You need publicity stunts so you datin' an actress
A real King has somebody bringin' the news
That his kingdoms ahead and they ain't fit to lace up
his shoes
So tell me who's the one anointing all these so called
kings?
They all self proclaimed and man, that's a dangerous
thing
