Its 5:46 in the morning; tossin and turnin; chest burnin;
sermons in my head keep reoccurring; havin visions in
my head of a kid cryin at the feet of the father for all
the wrong things that he did; now im sweatin in my
sheets, cant sleep; my mind keeps
tellin me im 6 feet deep; dont remind me; even though
im still alive i cant tell; the way im livin my life i feel im
goin to hell; god, they tellin me i should except you;
that you had to leave the world cause the world left
you; reason i cant change; li
ke a mystery to me; so i make-believe there really is a
heaven for a g; even though they say you loved the
world so much you shed your blood; god, i feel im too
messed up for love; they tell me come as i am; but i
smell like smoke; my whole life is full
of sin cause its all i know; the bible told me you died for
my sins; if i believe in Christ to save me from the end;
but im scared to ask you to save me; my heart so
weable; ive got thoughts just full of hatred; hurt from
people; i thought that first i h
ad to clean up my life; now im here and i just gotta
cling to the light; im ready to do it but, i pray you
understand; my life is a mess, will you take me as i am

Will you take me as i am; i know the way im livin is
wrong, but i cant change on my own tryin to make it
alone; i wonder, how could u love me with my life so
ugly; when you came down and died for me. Will you
take me as i am; i know the way im livin is wr
ong, but i cant change on my own tryin to make it
alone; i wonder, how could u love me with my life so
ugly; when you came down and died for me.

im still tryin to be the man my daddy ever taught me to
be; im grown up now, life aint what i thought it would
be; i made many mistakes in my past i cant fix; now im
starin at this crucifix, tainted on my wrist; is it true what
they tellin me am i just c
razy; did you bleed on the cross for my sins to save
me; but why would you die for me; my whole life ive
been workin for Satan while he fed lies to me; and now
im hearin too much; tryin to get in true touch; about a

love that can change me; im all screwe

d up; figured hell is what i deserve; but ur word says
we all fall short; so i guess we all owe a bird; teach me i
want to learn; how you can save a wretch like me
before death sends its last turn; i think i finally
understand; no matter my past you'll s
till take me as i am.

Will you take me as i am; i know the way im livin is
wrong, but i cant change on my own tryin to make it
alone; i wonder, how could u love me with my life so
ugly; when you came down and died for me. Will you
take me as i am; i know the way im livin is wr
ong, but i cant change on my own tryin to make it
alone; i wonder, how could u love me with my life so
ugly; when you came down and died for me. Will you
take me as i am.

i had a few last words to give; ive been tellin people the
reason to live, the reason to die; united with the king of
the sky; this life is passin us by, ive got no reason to lie;
you'll never give the world enough; they'll hunger for
more; there fixin t
here ways of nothin to settle the score; more security
than the man who left you; or more love than the
mommas who kept you; he'll always except you; be
everything your supposed to; let christ rule your heart
mind body and soul because he chose you; and
if the world dont know you; it dont matter, your god's
child and he'll never disown you; your purpose on earth
is far from worthless; thats why you glorify like your
lifes been purchased; and it dont matter if the world
dont see us; we still mean the wor
ld to jesus.

Will you take me as i am; i know the way im livin is
wrong, but i cant change on my own tryin to make it
alone; i wonder, how could u love me with my life so
ugly; when you came down and died for me. Will you
take me as i am; i know the way im livin is wr
ong, but i cant change on my own tryin to make it
alone; i wonder, how could u love me with my life so
ugly; when you came down and died for me. Will you
take me as i am.
