Coffee with cream coming up right away
You look, I look, we smile, we wave
You go, I dream about kissing one day
Oh well I sigh, maybe tomorrow when he comes again
I'll finally get to say what I've been wanting to say

I wanna get to know you
How can I get to know you
I wanna get to know you
Know you better
I wanna get to know you
How can I get to know you
I wanna get to know you
Know you better

Hanging with my girls, night-time, another world
High heels, blue jeans, he's looking at me
He takes my hand "would you like to dance? "
I say okay and then he starts to say to me
The words that I've waited to hear, the phrase that's no
longer a dream

I wanna get to know you
How can I get to know you
I wanna get to know you
Know you better
I wanna get to know you
How can I get to know you
I wanna get to know you
Know you better

You are
The meaning of everything beautiful
I can't wait to breathe your air
That smile
What a pleasure for me just to look at you
I can't wait to do whatever

I wanna get to know you
How can I get to know you
I wanna get to know you

Know you better
I wanna get to know you
How can I get to know you
I wanna get to know you
Know you better

[Chorus x3: with adlib]
