"So Into You"

I am addicted to how you make love
So unexplainable when we touch
You ain't never gotta worry about me leaving
What you give me is never too much
There' s so much to us, but this is physical
It's like a carnival and I am ready now to go for a ride

Chorus
All night.
Being with you is like
Patr'on on ice,
Sipping it slowly
Chocolate gift at night, I'm feeling it,
I'm so into you
I could stay up with you all night
We could get-get it in by candle-light
Taking it slow
Chocolate gift at night, I'm feeling it,
I'm so into you

So so so So so so into you

When we kissing I just lose my mind
You do something to me every time
And you always say the right thing to me
That's why I don't mind be anything you need me to be
We ain't gotta talk; say nothing; I am content
Being alone with you, I love it, you should stay all night

All night.
Being with you is like
Patr'on on ice, sipping it slowly
Chocolate gift at night, I'm feeling it
I'm so into you
I could stay up with you all night
We could get get it in by candle-light
Taking it slow
Chocolate gift at night, I'm feeling it
I'm so into you

I aint never had this here before

I'm so open wide
You opened the door
Never believed this could exist
I don't mind falling, never gonna go back
Because I know about this... yeah

So so so So so so into you
I am so into you
So so so So so so into you

I don't wanna be with nobody else but you

All night.
Being with you is like
Patr'on on ice, sipping it slowly
Chocolate gift at night, I'm feeling it
I'm so into you
I could stay up with you all night
We get it get it in by candle-light
Taking it slow
Chocolate gift at night, I'm feeling it
I'm so into you
