I remember the days when my life was turned around
Not happy with the love I found
I needed to change and you were always here in front
of me

I was runnin' away from the love you gave me
I wanted to lie but everything was crazy
Unsure of love, I needed love

Then came you
You were like the springtime, you make everything new
Just like the sun you brought the light
And now we are one

Every time it rains a little, you came to cover me
You were there for me, you never left one
When I felt the world stop and my heart was breaking
You were there for me, you never left one

Now you're in my world and it keeps on spinnin'
Ain't gonna change a thing 'cos I'm in it
Everything is beautiful because of you

How did you get here? I was dreamin'
Somebody help me 'cause I was needing you
I was wantin' you, I was callin' you

Then you came
And everything about me has changed
Just like the sun you brought the light
And now we are one

Every time it rains a little, you came to cover me
You were there for me, you never left one
When I felt the world stop and my heart was breaking
You were there for me, you never left one

You have brought me a life that's so unimaginable
And this love we share is so unexplainable
With everything I have I will give it to you
Because you were there for me

Gotta tell it all, yeah
I'ma tell about
You give me everything, everything, everything

Every time it rains a little, you came to cover me
You were there for me, you never left one
When I felt the world stop and my heart was breaking
You were there for me, you never left one

Every time it rains a little, you came to cover me
You were there for me, you never left one
When I felt the world stop and my heart was breaking
You were there for me, you never left one

Every time it rains a little, you came to cover me
You were there for me, you never left one
When I felt the world stop and my heart was breaking
You were there for me, you never left one
