She's got a secret, don't understand  
It

But she knows how to hide it well...

Turn the light out, and lock the  
Door

But you better not kiss an' tell...

(He says) he says that he loves  
Her

(What does) but what does that mean  
Things here aren't what they  
Seem

(Love crimes), guilty every time

(Can't you hear the cryin' in  
The night)

(Love crimes), way over the line

(Can't turn your back, or  
Close your eyes)

Lost between wrong and right, but it's black and  
White

When it's a love crime

She's got a feelin', she won't be

Dreamin',

Sweet dreams tonight..

She likes the silence, but when it's  
Broken

She's much too scared ta fight...

(She feels) she feels like a  
Criminal

(Nothin') but there's nothin' she can do  
One day she'll know the  
Truth

(Love crimes), guilty every time

(Can't you hear the cryin' in  
The night)

(Love crimes), way over the line

(Can't turn your back, or  
Close your eyes)

Lost between wrong and right but it's black and  
White

When it's a love crime...

Hush now baby don't you  
Cry  
Holdin' so much pain inside  
You'll get your chance ta say  
Goodbye...  
(He says) he says that he loves her  
(What does) but what does  
That mean  
Things here aren't what they seem

(Love  
Crimes)

(Love crimes), guilty every time  
(Can't you hear the cryin'  
In the night)  
(Love crimes), way over the line  
(Can't turn your back, or  
Close your eyes)

(Love crimes)...  
(Can't you hear the cryin' in the  
Night)  
(Love crimes), way over the line  
(Can't turn your back, or close  
Your eyes)  
(Love crimes)...  
(Can't you hear the cryin' in the night)
