Don't come back cryin' to me  
Tellin' me, your gonna be  
That man you've always wanted to be  
Well I can see right through those eyes  
Your just like them guys  
Who cheat on ladies and break their hearts  
Well I ain't takin' ya back, we're better apart  
So your best bet is to leave  
And find some other girl you can decieve  
Maybe she ain't like me  
But you'll be left and better off is where I'll be

Don't you come around here, don't show your face  
I'm through with you, that's the case  
You think it's as easy as 1, 2, 3  
To just come back and lie to me  
Don't you come around here, you better be gone  
So get out of my face and get off my lawn  
Don't come around here no more  
So leave and shut the door

Don't come back and say you've changed  
Baby we already played this game  
So don't come over askin' for just one more chance

There ain't no way in hell il'll take you back  
If your really sorry, don't show your face  
And if your sorry you wouldn't have done it in the first  
place  
My friends say I'll miss you  
The way we used to talk and the way I'd kiss you  
I'm tryin as hard as I can  
To forget about you and find another man  
So we played the game and I guess we lost  
You cheated on me and had to pay the cost  
Your gonna be the one who's cryin'  
And I'm gonna be the one who's tryin'  
To move on

Don't you come around here, don't show your face  
I'm through with you, that's the case  
You think it's as easy as 1, 2, 3

To just come back and lie to me  
Don't you come around here, you better be gone  
So get out of my face and get off my lawn  
Don't come around here no more  
So leave and shut the door
