hunt them out drag them into the streets humiliate
them baseball bats spinning
out of control in the city's belly running wild throughout
the veins of the
night mangle ripped clothing "open wide" nothing you
can do abduction "he's so
cute" daddy's little boy getting all amped up to split
this toy ugly joy ride
gang rape revving engines overheating boiling up
exposed and bleeding little boy
tossed from fist to fist don't make a sound watch him
squirm and twist gasoline
sweat gleams screams they don't care spinning out of
control drunk on the
violence ugly joy ride to the outside of town force his
face down watch the
scene distorted focus ugly and mean going to tear him
up amped up for a nasty
joy ride spinning out of control going on an ugly joy
ride spinning wheels
clenched teeth split lip "bad trip" gang raped bang
bang he's so cute daddy's
little angel like a sponge to soak up all the fluid braking
off inside
