And every night, I lay awake  
I find a confliction.  
And every night, it just stays the same  
In my dream, of absolution

In the night light  
Do you see what you dream  
All your troubles  
Are they all what they seem  
Look around you  
Then you may realize  
All the preachers  
All with their lies

And I might know of our future  
But then you still control the past  
Only you know if you'll be together  
Only you know if we shall last

In the night light  
Do you still feel your pain  
For the valor  
You wait; it never came  
If you were able  
Would you go change the past  
To mend a faux pas  
With one last chance

And I might know of our future  
But then you still control the past  
Only you know if you'll be together tonight

Cause every night I will save your life  
And every night I will be with you  
Cause every night I still lay awake  
And I dream of an absolution  
Cause every night I will make it right  
And every night I will come to you  
But every night it just stays the same  
In my dream of an absolution

In the night light

Do you see what you dream  
All your triumph  
And all you'll ever be  
Look around you  
Then you may realize  
Happiness lies  
Trapped in misery

And who knows what of our future  
We can all try to change our past  
Only you know if you'll be together tonight

Cause every night I will save your life  
And every night I will be with you  
Cause every night I still lay awake  
And I dream of an absolution  
Cause every night I will make it right  
And every night I will come to you  
But every night it just stays the same  
In my dream of an absolution

(Instrumental or guitar solo, depending on the version)

Cause every night I will save your life  
And every night I will be with you  
Cause every night I still lay awake  
And I dream of an absolution  
Cause every night I will make it right  
And every night I will come to you  
But every night it just stays the same  
In my dream of an absolution

And you'll see  
What you'll be  
And you'll see  
All you can be

'Cause every night (every night)  
And every night (every night)  
And every night (every night)  
I will dream (I will dream)

And you'll see (and you'll see)  
That this is what I dream  
Why you'll be (Why you'll be)  
And you'll see  
That every night, (All you can be)  
I will always dream  
'Cause every night (every night)  
And every night (every night)  
And every night (every night)

I will dream (I will dream)
