Turn me up
Turn everything ooh

I'm closing the door and i'm walking away
Turn up the fighting i've made a mistake
When you doubt even asking you say is my fault
I think we're runnin out of love.

And you are the one to me that you would make me
better
And you are the one to me we're always be together
How can it be bad if you can't let it go past.

Chorus:
I think it's time to move on and keep on moving in
And i don't know what i'm doing
Everytime i think i've found a perfect love man i lose it
This is so hard for me ..
You're not what i need
We both gotta see
I just be ran out of love
Ran out of love, ran out of love
Love, ran out of love,
I'll just be ran out of love
Love, ran out of love, love, ran out of love
Love, ran out of love

This is hurting more than it hurt you
And know just what ..down down
It's another woman girl it aint' true
Hey

And you are the one to me that you would make me
better
And you are the one to me we're always be together
How can it be bad if you can't let it go past.

Chorus:
I think it's time to move on and keep on moving in
And i don't know what i'm doing
Everytime i think i've found a perfect love man i lose it

This is so hard for me ..
You're not what i need
We both gotta see
I just be ran out of love
Ran out of love, ran out of love
Love, ran out of love,
I'll just be ran out of love
Love, ran out of love, love, ran out of love
Love, ran out of love

This is so hard for me to say
And now at this point i know
That you know ..i love

[Chorus:]

If you are the one tell me that you would make em
better
You are the one tell me we'll always be together
I'll just be ran out of love.
