[verse 1]

Since the day that we met girl  
I've never had anyone make me feel this way  
And my heart is sure it wants to be with you  
Want to give you the whole world...ohh  
If you make the promise to me, I'm gonna stay  
Without you guiding me, I'm lost and so confused

[hook]

What will it take to show you I'll be by your side  
Cause I got you and I want to give you what you never  
had  
Girl everyday I hope to make you part of my life  
Cause you know me and I know you  
Girl your love is where its at...ohhh

[chorus]

I'm gonna be the love that's gonna last  
And be the one that got your back  
And nothing never that bad  
That we would be together  
And we both made our mistakes  
And somethings never wished we made  
But we'll be okay if we just stay together

[verse 2]

Oooh...I know he left you stranded  
And you paid the price when you messed up your life  
Girl I know you're so afraid but I can't write the wrongs  
he did  
I know you saw the lipstick on my window  
And wonder how many chicks been to my home  
I done my share of playing games  
But for you I given up that life

[hook]

What will it take to show you I'll be by your side  
Cause I got you and I want to give you what you never  
had  
Girl everyday I hope to make you part of my life  
Cause you know me and I know you  
Girl your love is where its at...ohhh

(chorus)...

[verse 3]

Baby you're the one I'm waiting for  
Because you give me what I need and more  
Cause its clear that we are meant to be  
Together...together...we should be together  
Eternally....Ooohh  
And I'm gonna be....

(chorus) x2
