### "Where You Lie"

Under your bed, where you lie your head  
There's something waiting for you  
An empty bedroom where you lie  
And it's just too hard to try  
You've done all you can do

And under your cover  
That's where you'll find me  
Waiting for you  
And I have discovered  
There's been another  
Have you been untrue?

And you speak without a word  
In a voice I've never heard  
I wonder who you are  
And as the tears fall from your eyes  
It should come as no surprise  
How did it get that far?

And under your cover  
That's where you'll find me  
Waiting for you  
And I have discovered  
There's been another  
Have you been untrue?

If I told you a thousand times  
There's probably a reason why  
You're probably gonna cry  
And if I told you a thousand times  
There's probably a reason why  
You're probably gonna cry

And under your cover  
That's where you'll find me  
Waiting for you  
And I have discovered  
There's been another  
Have you been untrue?

And under your cover  
That's where you'll find me  
Waiting for you

If I told you a thousand times  
Probably a reason why  
Probably gonna cry,  
Probably gonna cry
